ShowMe Barcode

The real-time, fully integrated IBM i barcoding solution with professional printing, scanning and wireless transactions

Built on **ShowMe+** technology ShowMe Barcode provides a real-time access and visibility to your warehouse and operations.

Successful business employ barcoding within all aspects of their operation. **ShowMe Barcode** enables so much, from tracking work in progress, directing shipments to identifying appropriate parts, material & document control. The benefits that **ShowMe Barcode** brings including accurate information, real-time visibility and a highly efficient work force are clear:

- Support operation quality with improved accuracy of 99+% achievable
- Remove manual errors and associated time and labour to resolve them
- Free up workers and reduce the associated required paperwork
- Enjoy better data collation and automation with real-time visibility

"

We do many thousands of scans per day and Utilities 400 were brilliant in supporting our vision for a real-time scanning process. Now, through implementing **ShowMe Barcode**, we've gained the ability to validate at point of source. This has dramatically improved the process through a real-time production tracking system with better quality control and accuracy

Paul Medforth | IT Manager | Dewhirst Group

Create your own custom barcode programs or enjoy fully realised turnkey solution.

ShowMe Barcode helps companies running on IBM i, integrate barcode solutions to streamline their operations while increasing efficiency, improving productivity, and driving down costs. From custom barcode forms, labels and applications to real-time, validated transactions with your IBM i enterprise, no other platform offers more..

| Real-time processes | Turnkey barcode solutions | Advanced security and encryption | One Enterprise License | Browser based deployment |

Integrating **ShowMe Barcode** with real time optical barcode scanners and your IBM i enterprise ensure your inventory is constantly updated in real time with complete visibility

Using the latest in internet and browser technologies, **ShowMe+** is as develop once, deploy anywhere solution to enable you to bring state-of-the-art applications for multiple devices, quickly.

Create and deploy secure business portals for your clients, partners and suppliers to have access and act on information prevalent to them. **ShowMe+** provides best-in-class presentation of data with log-in dependent display environment.

ShowMe Barcode provides real-time 'mission control' view of operation as well as giving real-time Key Performance Indicators (KPI's) to those who need it. On production/warehouse wall to mobile device ShowMe can provide the answers.

With **ShowMe Barcode** you can enjoy an inventory accuracy of 99.9% while simultaneously improving efficiencies and visibility.

Discover trends and understand behaviour through ShowMe TurboCube technology – our native and real-time IBM i OLAP cube engine that will allow you to 'slice and dice' information to compare and contrast multiple views with just a click of a button. Need to export results to Excel no problem, done at a click of a button.

Security is built into **ShowMe Barcode**. Use your one secure sign on for all your applications and advanced filtering means that you'll only have access to the data you require. **ShowMe Barcode** makes use of your Active Directory signatures.

ShowMe Barcode enjoys its own built-in drag-and-drop design studio that allows you add you own graphics and processes to build your own barcode applications WITHOUT any HTML knowledge.

Only one single Enterprise license is required for ALL applications deployed through **ShowMe Barcode** (note, check for ERP licensing restrictions).

The team at Utilities 400 are experienced in putting together tailored barcode solutions for different process needs. From KANBAN processes to a simple picking solution, a tailored **ShowMe Barcode** solution can help boost your stock accuracies and production productivity.

Using ShowMe barcode applications provides business the opportunity to reduce errors and make huge gains in efficiency. ShowMe Barcode works in parallel with your ERP providing appropriate information and instruction to the barcode operative while providing fully validated, live reading and writing to your IBM i.

Eliminate maintenance and software support. Build your own bespoke barcode applications and remove the need to pay maintenance for software you no longer need.

"

From barcode creation to scanning, ShowMe Barcode is the real-time, turn-key solution for the IBM i enterprise looking to improve accuracy and productivity....

Paul Medforth | IT Manager | Dewhirst Group

ShowMe Barcode can reduce errors and improve accuracy through its real-time process control and analytics.

Learn about more IBM i solutions from the **Utilities 400** enterprise suite.
